

**BELMONDO®
Classic**

**Reduces cut-offs!
1.00 x 1.00 Meter**

Features

BELMONDO® Classic rubber flooring is ideally suited for horse stables and stable walkways.

BELMONDO® Classic is pleasantly elastic and anti-slip, which helps to protect a horse's hooves, tendons and joints alike. In addition, it insulates against the cold and is watertight. Thus, when looked after properly, the horses stand with dry hooves and are not exposed to their own

aggressive urine. BELMONDO® Classic is very hygienic – and is also very easy to clean.

As a single BELMONDO® mat, the Classic rubber flooring is also available as a half mat, with a 50 cm width. Since this has puzzle-cut edges on three sides and a straight edge on the longitudinal side, depending on the stable size, it saves unnecessary waste through cutting.

Consult the separate instructions on laying.

Data

- Surface:**
Horseshoe profile
- Underside:**
Groove profile
- Material:**
Vulcanised rubber
- Dimensions (approx.):**
- Total width**
Thickness 16 mm
Length 1 m
Width 1 m
Weight per mat
20 kg
- Puzzle cut on 4 sides**
- Half width**
Width 50 cm
Weight per mat
10 kg
- Puzzle cut on 3 sides**
- BELMONDO® Classic can be combined with all new BELMONDO® products

Subject to change without prior notice. All dimensions specified with tolerances: Thickness +2 / -1 mm. Length and width +/- 1.5 % (DIN ISO 3302-1 tolerance class M 4). The tolerances also apply within the mat.
